

# That's Jazz! Exploring Pulse and Rhythm

			
I understand that jazz originally came from New Orleans in the United States of America.			
I understand that there are lots of different types of jazz music.			
I can name most of the instruments that commonly play jazz music.			
I understand the difference between pulse and rhythms.			
I understand what cyclic rhythm patterns are.			
I could play a three part cyclic rhythm pattern mostly accurately and in time with others.			

Is there anything else you want to mention? \_\_\_\_\_
